LAKES
SHOWERING SPACES

The difference is clear.

Experience the true colours of your showering space with PureVue^{HD} crystal clear, low iron glass.

PureVue^{HD} glass is optically superior and ultra clear

Normal glass has a green tinge

PureVue^{HD} low iron glass reduces the green hue in normal glass to near-zero, so glass is clearer, lighter and brighter.

PureVue^{HD} is included in our Island and Coastline Collections* at no extra cost. It is also included on selected Walk-Ins. Refer to Lakes' brochure for full details.
