

THE ROKU[®] COLLECTION

Lakes Showering Spaces is one of the UK's longest established showering brands with a strong history and pedigree, having been founded almost 40 years ago.

In that time Lakes has built up an award-winning reputation based on trust, quality and first-class customer service levels. Because we care.

Right down to the finest and often unseen details all Lakes shower doors are skilfully designed in the UK for the UK market and manufactured to the most stringent quality standards in our own factory.

At Lakes, we consider every element of the showering space, to make sure it suits the needs of the people using it, from the clarity of the glass to the performance of the doors and even the reassuring feel of the tray under our feet.

Loyal, regular customers as well as those buying a Lakes product for the first time agree our products are 'excellent'. Lakes rating published via **Trust Pilot** is Excellent.

We are proud members of the **Bathroom Manufacturer's Association** and collaborate with many other fellow companies to focus on raising quality standards, improving safety and compliance and sustainability by reducing our environmental impact – all helping shape the future growth of our industry and showering product sector.

Lifetime Guarantee

Showers are important and integral elements of our lives. So, when it comes to buying or replacing a showering space, it helps to know your choice is supported by the highest quality assurance, customer service and technical support.

Lakes' genuine **Lifetime Guarantee*** covers all our shower doors and enclosures and spare parts and is also fully transferable. So even if someone moves home, the new owner will still be covered for the lifetime of the product.

If you have a problem with any part of a Lakes product, we will sort it out. quickly. Our efficient customer service support means spare parts will most likely arrive the next day. Another reason why we're recommended by homeowners, stockists and installers across the UK.

For more information on the guarantee for shower trays please contact us directly.

*Reduced height shower doors carry a 10-year guarantee

Carbon Neutral & Sustainable

Lakes has taken steps to be certified Carbon Neutral by changing how we operate as a business. Naturally, we recycle all our product, site and office waste.

Our product packaging is 100% recyclable too, plus we're working with customers to take back our used packaging from installers through participating stockists. This step alone will remove 2,000 kilometres of plastic banding and two million pieces of polystyrene a year from landfill.

We continue to work with Carbon Footprint Ltd to offset the carbon emissions produced in the day-to-day running of our business by investing in environmental projects.

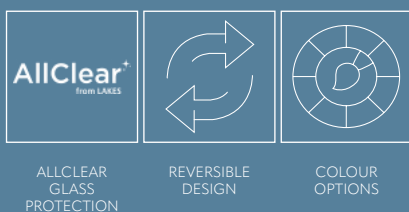

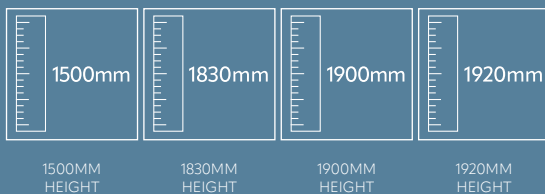

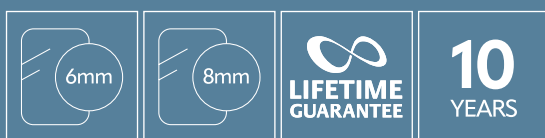

Lakes is proud to have been awarded the Carbon Footprint Standard and recognised as a Carbon Neutral Plus organisation.

Lakes AllClear®

The shower is often one of the most in-demand utilities in a busy household, which can make it hard to keep clean and looking good as new. **Lakes AllClear®** advanced glass coating is applied on both sides of the glass as standard and at no extra cost.

The science behind clear glass. The microscopic nanoparticles in the **Lakes AllClear®** innovative bonded coating fills the gaps in the naturally pitted surface of the glass to ensure water, limescale and soap scum simply slides off.

A simple wipe clean with a damp cloth of the specially treated glass keeps it looking like new, so your relaxing shower isn't spoiled by smears and smudges.

Lakes Glass with **AllClear®** is 10 times more scratch resistant than standard glass, so it can handle whatever life throws at it.

Quality

Outstanding quality, performance and safety throughout. Lakes also regularly test products above and beyond mandatory standards, allowing us to offer a Lifetime guarantee.

Made from toughened safety glass, conforming to BS EN12150-1 (which is etched onto each piece of glass). Every shower door and bathscreen are tested and comply with BS EN 14428:2015+A1:2018.

All shower trays pass the required quality and safety standards BS EN14527:2006 Class1/BS EN15720:2009, and our slip resistant trays achieve Class C DIN 51097.

The Colour Impact

The bathroom is one of the most used rooms in the home and the colour scheme accents can make all the difference to the user's happiness and aesthetic appeal of the bathroom.

Timeless silver/chrome, dramatic and bold black or the natural warmth of brushed brass will assist as you personalise the bathroom design.

Whichever colour – we are confident you'll achieve a great coordinating look with any number of branded brassware and accessory brands.

All colours are produced to the most exacting production and quality standards, featuring super strong surfaces that are easy to clean, and are stain, UV, chemical and scratch resistant.

Three-Sided Shower Enclosures

Have a little more space in the bathroom? Replacing a bath but want to free up floors and walls for more family storage?

Our 6mm Sliding, Bifold and Pivot doors can all be easily installed with two side panels either side of the moving door to create a more indulgent feel to your showering space.

**Easy to design
in and order.**

1

Select your moving door,
width and colour.

2

Select your preferred size of
side panel to suit the floor
space/shower tray.

3

Use two angled
bracing bars.

4

Don't forget a compatible
Lake's shower tray to
complete the showering
space see pages 42-43.

Inline Fixed Panels

Exclusively Silver/Chrome

Where a room or design requires a wider shower door configuration than standard sizes for a Lakes 6mm Sliding, Bifold or Pivot shower door, this practical In-line Panel Pack contains all you need to create a luxuriously sized showering space.

1900mm Height Optional Inline Panel for Slider, Bifold & Pivot Door

Width mm	Adjustment mm	Silver Code	Price £ Ex. VAT	Price £ Inc. VAT
300	290-300	AIP030	£207.00	£248.40

Supplied with bracing bar. This Inline panel creates a linear design where a glass panel door is attached to one or more glass panels at a 180-degree angle.

Sliding Shower door - with Optional Inline Panel

Lakes Quality Guaranteed

We have created this product information section to assist with your purchase and to provide useful information once your Lakes shower enclosure is installed.

For further information please visit: www.lakesuk.com

All Lakes shower enclosures & bath screens are manufactured to the highest standards according to ISO 9001: 2015 Quality Management System.

All Lakes shower enclosures & bath screens are UKCA (& CE) marked, tested & conform with BS EN14428:2015+A1:2018. All glass used in construction is thermally toughened & marked according to EN12150-1.

Lakes shower trays comply to BS EN14527:2006 Class 1/ BS EN15720:2009. Shower wastes are manufactured to BS EN 274-1: 2002

Lakes Guarantee

1900 shower enclosures, 1920 walk in panels and all bath screens are covered by our **Lifetime guarantee** against manufacturing defect.

1830 shower enclosures are covered by a **10-year guarantee** against manufacturing defect.

Both guarantees are valid on condition that the products have been installed and maintained in accordance with the product's fitting instructions provided and used as intended. Damage or defects resulting from modification and or repair by unauthorised persons, improper use or are ex-display products are not covered.

Lakes will resolve any defects resulting from manufacturing fault free of charge via repair or replacing parts, this must be only conducted by Lakes Bathrooms or an approved agent.

Parts that are subject to wear and tear during day-to-day usage e.g. seals are under guarantee for 12 months from date of purchase.

Please retain your proof of purchase to validate your guarantee.

If your product becomes defective call us on **01684 853870** or email: customerservice@lakesuk.com

Installation

Prior to installing your Lakes product, please read the installation guide in full. Failure to do so may invalidate your guarantee.

Shower trays must be plumbed and level, walls should be tiled or paneled down to the tray and sealed before doors are fitted. Check tray height before installation as there are manufacturing tolerances that must be allowed for.

AllClear®

Lakes Glass has been developed to ensure a crystal clear, smear-free, showering space. Our glass includes AllClear®, nano-bonded coating treatment, which is applied to both sides of the glass, meaning water, limescale and soap scum slide off the glass rather than sticking to it.

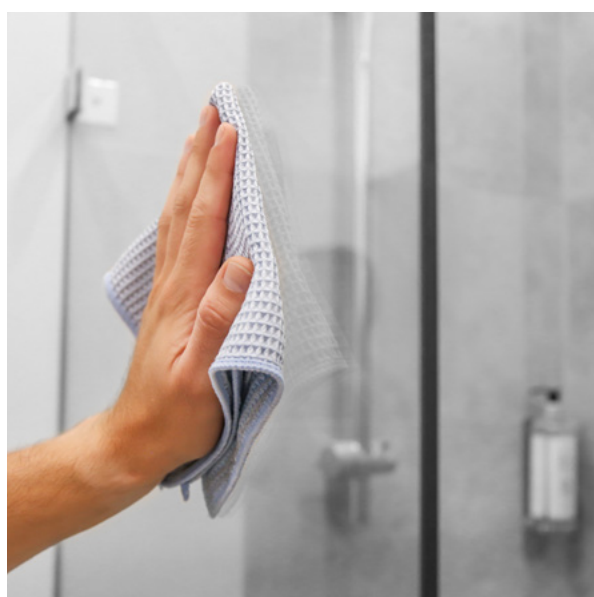

It stays clear and clean and comes as standard at no extra cost. Lakes Glass with AllClear® is 10 times more scratch resistant than standard glass, so it can handle whatever life throws at it.

Product Care

Caring for your shower door walk in panels, shower, bath screen and shower tray

To maintain your guarantee, we recommend cleaning as below:

- Glass: Only use a soft cloth and mild detergent, rinse off thoroughly after cleaning.
- Metal and metallic surfaces: Use only a soft cloth and warm soapy water. Rinse off thoroughly.
- In hard water areas, regular cleaning of your Lakes product will help to prevent the build-up of limescale.
- Limescale can be removed using a 50:50 solution of white vinegar and water.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit/dirt which may have collected over time.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product.
- Do NOT use cleaning products, bleaches, solvents or abrasive pads.
- Non-compliance with these cleaning instructions will invalidate the products guarantee and may cause plated / painted / anodised surfaces/finishes to deteriorate and could adversely affect safe operation of the enclosure.

After Sales Commitment

At Lakes we are passionately devoted to providing the very best customer service. Lakes excellent customer service is supported by an extensive stock of spare parts across all ranges..

Call our dedicated customer service team on **01684 853870** who will deal with your enquiry and will swiftly dispatch your spares order. Alternatively email customerservice@lakesuk.com or head to our website and complete our enquiry form www.lakesuk.com/contact-us

Spare Parts

We have a team of technical experts who can deal with and offer advice on any queries you may have and arrange despatch of spare parts within 3-5 working days. Call us on **01684 853870**.

What to do if something goes wrong

Should the product not function correctly on initial use, firstly, contact the installer to check the installation is in accordance with your installation instructions. Should this not resolve difficulties or should performance decline, refer to the 'Troubleshooting' section withing the installation guide. Alternatively, our customer service team can assist or if necessary, arrange for a service engineer to visit. Please call **01684 853870**, email customerservice@lakesuk.com or head to our website and complete our enquiry form: www.lakesuk.com/contact-us

Returns Policy

Lakes will not accept return of any product no longer required that has been opened. We do not accept return of any product if the packaging has been damaged. If the product is unopened and not damaged, we will accept the return subject to agreed returns charges, but no longer than 3 months from date of original delivery.

As part of Lakes continuing policy of product improvement, we reserve the right to amend specifications, colours and prices and discontinue products without prior notice.

Images, room layouts and associated bathroom products are for marketing and visual purposes only. The colours and finishes shown in the catalogues are as accurate the printing process permits.

*Errors and Omissions Exempt.

Reference Guide

Easy Reference guide to order codes for products available in colours.

The default code is S for silver, B for Black, BRS for brushed brass must be added as a suffix.

Please use the codes below when ordering black or brushed brass products.
