

WAVE COLLECTION

SPRING 2026

Lakes is a premier brand within the UK market for 40 years. Experts in designing and engineering shower enclosures, bathscreens and walk in panels for the UK market.

Our ambition is to provide shower enclosures and bathscreens that are not only beautiful but offer the very best day to day performance, suit a wide variety of bathroom styles and provide years and years of enjoyment.

Our products are fully tested to comply to all required safety and performance requirements; but being Lakes we go way beyond those tests. That's why we are so proud to provide a transparent and genuine lifetime guarantee on all our enclosures and bathscreens.

The difference is Lakes.

Attention to detail is important. The precision engineered Wave Collection strikes a perfect balance between function and stylish design. Designed in the UK for the UK including all the features and benefits, and more that you would expect from Lakes who have been producing the highest quality shower doors for almost 40 years. Each door is tested not only to comply with the required quality standards but far in excess, up to 30,000 opening and closing cycles in the case of our hinged and sliding doors.

Naturally every Wave door is covered by a 100% transferable lifetime guarantee.

Lakes is the first bathroom manufacturer in the world to have achieved B Corp certification.

The industry-first accreditation recognises Lakes' unwavering commitment to meeting the highest verified standards of sustainable practices throughout all of its operations, outstanding customer service, staff welfare, and active community support and participation.

Lakes ongoing commitment to meet the rigorous standards of social and environmental responsibility within B Corp, endorses our position as one of the UK's leading bathroom product manufacturers.

THE COLOUR IMPACT

The bathroom is one of the most used rooms in the home and the colour scheme accents can make all the difference to the user's happiness and aesthetic appeal of the bathroom.

Timeless silver/chrome, dramatic and bold black, subtle industrial brushed nickel and gun metal or the natural warmth of brushed brass will assist as you personalise the bathroom design.

Whichever colour – we are confident you'll achieve a great coordinating look with any number of branded brassware and accessory brands. All colours are produced to the most exacting production and quality standards, featuring super strong surfaces using anodising or PVD that are easy to clean, and are stain, UV, chemical and scratch resistant.

Showers are important and integral elements of our lives. So, when it comes to buying or replacing a showering space, it helps to know your choice is supported by the highest quality assurance, customer service and technical support.

Lakes' genuine **Lifetime Guarantee** covers all our shower doors, enclosures, bath screens and spare parts and is also fully transferable. So even if someone moves home, the new owner will still be covered for the lifetime of the product.

If you have a problem with any part of a Lakes product, we will sort it out, quickly. Our efficient customer service support means spare parts will most likely arrive the next day. Another reason why we're recommended by homeowners, stockists and installers across the UK.

For more information on the guarantee for shower trays please contact us directly.

Loyal, regular customers as well as those buying a Lakes product for the first time agree our products are 'excellent'. Lakes rating published via **Trust Pilot** is Excellent.

We are proud members of the **Bathroom Association** and collaborate with many other fellow companies to focus on raising quality standards, improving safety and compliance and sustainability by reducing our environmental impact – all helping shape the future growth of our industry and showering product sector.

LAKES ALLCLEAR®

The shower is often one of the most in-demand utilities in a busy household, which can make it hard to keep clean and looking good as new. **Lakes AllClear®** advanced glass coating is applied on both sides of the glass as standard and at no extra cost.

The science behind clear glass. The microscopic nanoparticles in the **Lakes AllClear®** innovative bonded coating fills the gaps in the naturally pitted surface of the glass to ensure water, limescale and soap scum simply slides off.

A simple wipe clean with a damp cloth of the specially treated glass keeps it looking like new, so your relaxing shower isn't spoiled by smears and smudges.

Lakes Glass with **AllClear®** is 10 times more scratch resistant than standard glass, so it can handle whatever life throws at it.

AllClear®

CARBON NEUTRAL & SUSTAINABLE

Lakes has taken steps to be certified Carbon Neutral by changing how we operate as a business. Naturally, we recycle all our product, site and office waste.

Our product packaging is 100% recyclable to offset the carbon emissions produced in the day-to-day running of our business by investing in environmental projects.

Lakes is proud to have been awarded the Carbon Footprint Standard and recognised as a Carbon Neutral Plus organisation.

QUALITY

Outstanding quality, performance and safety throughout. Lakes also regularly test products above and beyond mandatory standards, allowing us to offer a Lifetime guarantee.

Made from toughened safety glass, conforming to BS EN12150-1 (which is etched onto each piece of glass).

Every bathscreen is tested and comply with BS EN 14428:2015+A1:2018.

Hinged Door With Inline Panel

Attention to detail is important. The precision engineered Wave Collection strikes a perfect balance between great performance and stylish modern design. The hinged door with inline panel is no exception and is the latest addition to the range - the ideal choice for luxury enclosure spaces.

PRODUCT CARE

Caring for your shower door walk in panels, bath screen and shower tray

To maintain your guarantee, we recommend cleaning as below:

- Glass: Only use a soft cloth and mild detergent, rinse off thoroughly after cleaning.
- Metal and metallic surfaces: Use only a soft cloth and warm soapy water. Rinse off thoroughly.
- In hard water areas, regular cleaning of your Lakes product will help to prevent the build-up of limescale.
- Limescale can be removed using a 50:50 solution of white vinegar and water.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit/dirt which may have collected over time.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product.
- Do NOT use cleaning products, bleaches, solvents or abrasive pads.
- Non-compliance with these cleaning instructions will invalidate the products guarantee and may cause plated / painted / anodised surfaces/finishes to deteriorate and could adversely affect safe operation of the enclosure.

AFTER SALES COMMITMENT

At Lakes we are passionately devoted to providing the very best customer service. Lakes excellent customer service is supported by an extensive stock of spare parts across all ranges..

Call our dedicated customer service team on **01684 853870** who will deal with your enquiry and will swiftly dispatch your spares order. Alternatively email **customerservice@lakesuk.com** or head to our website and complete our enquiry form **www.lakesuk.com/contact-us**

SPARE PARTS

We have a team of technical experts who can deal with and offer advice on any queries you may have and arrange despatch of spare parts within 3-5 working days. Call us on **01684 853870**.

WHAT TO DO IF SOMETHING GOES WRONG

Should the product not function correctly on initial use, firstly, contact the installer to check the installation is in accordance with your installation instructions. Should this not resolve difficulties or should performance decline, refer to the 'Troubleshooting' section within the installation guide. Alternatively, our customer service team can assist or if necessary, arrange for a service engineer to visit. Please call **01684 853870**, email **customerservice@lakesuk.com** or head to our website and complete our enquiry form: **www.lakesuk.com/contact-us**

RETURNS POLICY

Lakes will not accept return of any product no longer required that has been opened. We do not accept return of any product if the packaging has been damaged. If the product is unopened and not damaged, we will accept the return subject to agreed returns charges, but no longer than 3 months from date of original delivery.

As part of Lakes continuing policy of product improvement, we reserve the right to amend specifications, colours and prices and discontinue products without prior notice.

Images, room layouts and associated bathroom products are for marketing and visual purposes only. The colours and finishes shown in the catalogues are as accurate the printing process permits.

*Errors and Omissions Exempt.

LAKES GUARANTEE

Shower Enclosures and Bath screens are covered by our Lifetime guarantee against manufacturing defect.

Shower trays and wastes are covered by a 10-year guarantee against manufacturing defect.

Guarantees are valid on condition that the products have been installed and maintained in accordance with the product's fitting instructions provided and used as intended. Damage or defects resulting from modification and or repair by unauthorised persons, improper use or are ex-display products are not covered. Lakes will resolve any defects resulting from manufacturing fault free of charge via repair or replacing parts, this must be only conducted by Lakes Bathrooms or an approved agent.

Please retain your proof of purchase to validate your guarantee. If your product becomes defective call us on **01684 853870** or email: **customerservice@lakesuk.com**

ALLCLEAR®

Lakes Glass has been developed to ensure a crystal clear, smear-free, showering space. Our glass includes AllClear®, nano-bonded coating treatment, which is applied to both sides of the glass, meaning water, limescale and soap scum slide off the glass rather than sticking to it.

It stays clear and clean and comes as standard at no extra cost. Lakes Glass with AllClear® is 10 times more scratch resistant than standard glass, so it can handle whatever life throws at it.

INSTALLATION

Prior to installing your Lakes product, please read the installation guide in full. Failure to do so may invalidate your guarantee.

Shower trays must be plumbed and level, walls should be tiled or paneled down to the tray and sealed before doors are fitted. Check tray height before installation as there are manufacturing tolerances that must be allowed for.

When considering a new bath screen and bath installation, or adding a bath screen to an existing bathtub, the following checks must be made:

The bath rim should be essentially flat in form where the screen is located.

Baths with integrated soap dishes, 'roll top' bath style design and uneven bath rim types are not compatible with bath screens, and may cause water leaks.

Any bath handle grips included with a bath should not interfere with bath rim/bath screen.

When choosing your bath screen, check that any moving panel(s) whether inward or outward opening will not interfere with brassware, furniture or accessories in operation (taps/shower heads, basins, WCs, radiators etc).

It is recommended that the shower head position is centrally fitted on the same wall as the bath screen.

Bath rims must angle down toward the bath area to ensure that water landing on the rim drains into the bath. It is essential to check across rims, including corners using a small spirit level or a small amount of water to assess fall direction. Bathtubs exhibiting outward fall are not compatible.

Baths must be fully supported with timber battens/ support framing under the rim. Inadequate support can cause rim to drop/create outward fall.

LAKES QUALITY GUARANTEED

We have created this product information section to assist with your purchase and to provide useful information once your Lakes shower enclosure is installed.

For further information please visit: **www.lakesuk.com**

All Lakes shower enclosures, shower trays & bath screens are manufactured to the highest standards according to ISO 9001: 2015 Quality Management System.

All Lakes shower enclosures & bath screens are UKCA (& CE) marked, tested & conform with BS EN14428:2015+A1:2018. All glass used in construction is thermally toughened & marked according to EN12150-1.

Lakes shower trays comply to BS EN14527:2006 Class 1/ BS EN15720:2009. Shower wastes are manufactured to BS EN 274-1: 2002
